

Good evening my dear freshmen and all colleagues.

I thought we could meet you all in person, but this expectation has been ruined by the epidemic prevention. Now we have to accept the fact that we are living in a world of constant changes, and we need to adjust our plans almost every day.

But, no matter what changes we have to face; one thing we can be sure of is that you are Wenzaoians and you have the Wenzao DNA from today and now, and this won't be taken away by any diseases or pandemics.

As the head of the Wenzao family, I would like to welcome you all to join our big family, and share with you that your future life at Wenzao will be a new milestone for you if you fully use the resources during your time at Wenzao. Although you are tied up with jobs, you have your plans for your life.

However, since you choose to take a tough life, to work during the day, and to study in the evening, I believe you have the ambition to make a change in your life.

If this is the case, I would like to use today's opportunity to tell you in what ways Wenzao can help you achieve your dream or plan.

Because of the 2030 Nation Bilingual Policy, in the near future, most of the companies will be looking for someone who has language skills that can help them become more internationalized and thus increase their market profits.

Therefore, language skills definitely are an important key to help you climb up to the upper part of the career ladder.

Wenzao has the best resources in helping students acquire language skills not only in Taiwan, but also in Asian countries, compared to other language universities in Asia.

Wenzao is a globalized university. We have strong connections with universities around the world. Perhaps you might think because of your work during the day, you won't be able to have the opportunity to

become exchange students. But, the decision is in your hand, and if you consider allowing yourself a year to study abroad and that will make you return to Taiwan as a person with a wider global view and action, I would encourage you to be daring to seize the chance to enlarge your life scope.

Wenzao is a university that emphasizes relationship. That means we care about our relationship with students, teachers and colleagues. We always say that Wenzao is a big family. This is not just a slogan; it is a reality with many touching stories happening between teachers and students; there are stories about how we help students find their aims in life, overcoming the difficulties that they encountered, etc. Students learn to improve interpersonal communication, build a better relationship with friends and families, and most importantly, they feel happy and confident studying at Wenzao and become a more rounded person.

I don't know how much of what I have said so far has gotten into your heart or whether you believe what I have said or not? At least, this is our attitude and with this attitude in the past 55 years Wenzao has received the reputation as a university that really cares about people and our students in addition to helping students become professional and globalized.

When you become a Wenzaorian, you have already joined thousands and thousands of alumni, our Wenzao graduates. In the past 55 years, they have established a good reputation in their work fields, they feel very proud of being Wenzao members, and they are all very willing to be your supports in helping you find a decent and good job when you are ready to graduate from Wenzao.

And the very last point for our dear Freshmen: I encourage you to love your choices. Always look ahead, and never look back and doubt whether your choices are correct or not. Try to live on your choices for a period of time and perhaps you will find entering Wenzao is the best and the wisest choice you have ever made in your life.

Good luck to your new life at Wenzao and may this day to be a memorable day in your life, which leads you to the new horizons.
