

## **2022 Falling in Love with English Camp (4-year College Program)**

Dear Freshmen, Good afternoon. Welcome to Wenzao Ursuline University of Languages. Congratulations to all of you who have officially become Wenzaorians, and I believe that it is a wise choice for you that you join our Wenzao family.

As a freshman, it is a stage of a turning point in your life, and we hope that after four years, you are able to successfully walk out of the Wenzao gate with pride and confidence no matter what experiences you have gone through.

I would like to remind you that you live in the best but also the most uncertain and complicated world. Whether you are going to live happily, it all depends on how you manage your four years, your life, and time here at Wenzao.

Due to the sharp decline of birthrate, you are in the best time regarding future career development. That means no matter what you will become, you will have several jobs waiting for you.

However, what kind of job or how much pay you want to get is no more an important issue; the more important issue for you to think about is what kind of future or society you are going to face when you graduate from Wenzao?

You are facing a world with diversity, with a culture focusing more on sense of belonging, sustainability, big data, smart city and constant change of things and attention. Your way of living, working, searching for happiness, personal development, and issues you care, will be far more different from those of our society we live in. But, one thing cross all generations we all care is pursuing our well-being(幸福感).

In Wenzao we have three important words which if you use them, live in them, and experience them, you will find your well-being and your life will not be filled with tear, complexity, ambiguity instead of vision, understanding, courage and adaptability.

I hope our university's mission statement, or educational purposes embodied in the three precious words, Life, Language, and Leadership, the three big words that you will hear again and again during the camp, will guide you through the college life and find your well-being and success in career and life.

Wish you have a golden 4-year college life in Wenzao and enjoy every moment of the falling in love with English camp with which as a gift we prepare particularly for you as a token of warm welcome. Thanks.
